Message from the Management

We would like to thank you for your ongoing support of the Chukyo Bank.

This disclosure report presents the settlement of accounts for the fiscal year ended March 31, 2017. We hope that reading this report will help you gain a deeper understanding of the Bank.

Japan's economy has been continuing along a course of moderate recovery amid continuing improvement in the employment and income environment, benefiting also from various government measures. In the last half of the fiscal year ended March 31, 2017, in particular, improvement in business sentiment was observed from corporate earnings improvement and a stock market rise following a phase of yen depreciation on foreign exchange. In the Tokai region, the level of capital investment was maintained as exports and production recovered due to a moderate recovery in overseas economies, and consumer spending was also steady following improvements in the employment and income environment.

Amid such economic conditions, the role of a regional financial institution that supports customers in the region and contributes to the region's economic growth is becoming increasingly important. To that end, the Chukyo Bank aspires to realizing its management vision of being "The first bank to ask for advice." By working to further improve the quality of our service, we want to contribute to greater business growth and lifestyle enrichment for our customers.

Based on these ideas, we have implemented a raft of measures under its 16th Medium-Term Management Plan launched in April 2015. This plan aims at building a solid management foundation with the theme of "answering regional needs with gratitude." We advance our measures guided by three basic strategies of "human resource base," "customer base," and "financial base" and work to enhance the Bank's presence in the Tokai region and increase its corporate value as a regional financial institution. We will answer the needs of our diversifying customers in regional areas with a spirit of gratitude, thereby contributing to the development and invigoration of the regional economy through financial services.

All of us at the Bank, employees and directors alike, would appreciate your continued support and patronage as we implement a range of initiatives and strive to revitalize the region's economy.

August 2017

Ryo Nagai, President

Operating Results

Looking back on the domestic economy last year, conditions have been continuing along a course of moderate recovery amid continuing improvement in the employment and income environment, benefiting also from various government measures. In the last half of the fiscal year ended March 31, 2017, in particular, improvement in business sentiment was observed from corporate earnings improvement and a stock market rise following a phase of yen depreciation on foreign exchange.

In the Tokai region, the level of capital investment was maintained as exports and production recovered due to a moderate recovery in overseas economies, and consumer spending was also steady following improvements in the employment and income environment.

Amid such economic conditions, the monetary situation in Japan has been under the influence of quantitative and qualitative monetary easing with long- and short-term interest rate control by the Bank of Japan and low interest rate policy globally. As a result, the long- and short-term interest rate moved into minus territory. However, following the U.S. presidential election in November, the long-term interest rate rebounded into positive territory and at the end of the fiscal year, it was hovering around 0.06%. In the stock market, the Nikkei Stock Average was seesawing for the first half of the fiscal year, but it began to rise from November onward. The index closed at 18,909 yen as of the end of March 2017, up 2,151 yen from a year earlier.

Under these financial and economic conditions, the Bank implemented a range of measures under its 16th Medium-Term Management Plan launched in April 2015 and worked to enhance the Bank's presence in the Tokai region and increase its corporate value as a regional financial institution.

In services for individual customers, in addition to lending proposals such as housing loans, the Bank sought to run various marketing campaigns for time deposits and foreign currency time deposits, and add more investment trusts and insurance products to its lineup, aiming to the stable asset formation.

In services for business customers, the Bank worked to respond to broad ranging needs through offering finance evaluated on the strength of the business as a proactive measure to meet demand for sound financing, and strengthening initiatives for providing support to businesses starting up and new businesses, overseas expansion support, proposals for business succession and business matching.

As part of its initiatives for regional revitalization, the Bank strengthened its cooperation with local government organizations, economic organizations and universities in the regions where it operates, aiming to encourage and develop regional industry and economy. Moreover, for customers taking initiatives to utilize regional resources or enhance the competitiveness of regional industry, the Bank actively proposed loan products "Chukyo Chihou Sousei Fund - α ." In regard to its internal organization, the Bank established the Owari-Mikawa Sales Office, and by constructing a sales office structure in Aichi Prefecture in addition to the sales office structure in Nagoya that has existed up until now, the Bank was able to push ahead with initiatives aimed at boosting sales capabilities and promoting regional revitalization initiatives.

With respect to branches, the Bank worked on realizing greater efficiency of business operations by merging the branch operations of Owase Branch with Matsusaka Branch in March 2017 to make that location a non-branch ATM location (Matsusaka Branch Owase sub-branch).

The number of branches including the Head Office and the Internet branch as of March 31, 2017 stood at 87, a decline of one branch from the previous fiscal year-end. ATMs installed at

non-branch locations stood at 46 locations, an increase of one from the previous fiscal year-end. The Bank continues to examine the possibilities in regard to future establishment or relocation of branches and ATMs at non-branch locations, while considering the convenience of customers in the region.

Moreover, in line with the policy of its environmental declaration “We make a contribution to the regional community through our environmentally friendly activities,” the Bank continued to offer “Eco Time Deposits” in the fiscal year under review, a part of the balance of which was donated to a greening organization. Part of the trust income from the “Eco Investment Trust” was donated to an environmental preservation fund.

The Bank will continue to make an active contribution to society through its environmentally friendly activities.

As a result of these initiatives, the operating results for the Bank and its consolidated subsidiaries were as follows.

The balance of deposits as of the end of the fiscal year stood at 1,749.0 billion yen, an increase of 37.8 billion yen from the end of the previous fiscal year. This increase reflected efforts by the Bank to respond to the fund management needs of customers by conducting various campaigns and offering appealing products.

Loans and bills discounted totaled 1,297.5 billion yen as of the end of the fiscal year, an increase of 23.2 billion yen from the end of the previous fiscal year. This increase mainly reflects the promotion of financing for medium- and small-sized businesses that bases evaluation mainly on business attributes, and initiatives for housing loans targeting individual customers.

The balance of securities at the end of the fiscal year stood at 578.7 billion yen, an increase of 2.3 billion yen year on year as a result of accumulating the balance of investment trusts.

In terms of income, total income declined by 1,511 million yen year on year to 30,726 million yen, mainly reflecting a decline in interest on loans and discounts due to lower yields and a decline in fees and commissions. Total expenses declined 1,145 million yen year on year to 25,642 million yen, mainly reflecting a decline in interest expenses due to lower yields of deposits and a decline in foreign exchange loss. As a result, profit attributable to owners of the parent decreased 343 million yen year on year to 3,679 million yen.

The consolidated capital adequacy ratio (domestic standard) declined 0.32 points compared with the previous fiscal year to 9.42%.

Cash Flows

Cash flows for the fiscal year ended March 31, 2017 were as follows. Net cash provided by operating activities totaled 15,893 million yen, mainly due to an increase in deposits. Net cash used in investing activities totaled 816 million yen, mainly due to purchases of securities. Net cash used in financing activities totaled 2,877 million yen, mainly reflecting repayments of lease obligations.

As a result of the above, cash and cash equivalents at the fiscal year-end totaled 45,893 million yen, an increase of 12,186 million yen from the previous fiscal year-end.

Basis of presentation

These financial statements without footnotes have been compiled from the consolidated financial statements prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations and the Ordinance for Enforcement of the Banking Act, and in conformity with accounting principles generally accepted in Japan. Certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan.

U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥112.20 to \$1, the approximate rate of exchange at March 31, 2017. Amounts less than one million yen and amounts less than one thousand dollars are omitted. As a result, totals shown in the accompanying financial statements without footnotes do not necessarily agree with the sum of the individual amounts.
